Stakeholder & Reporting

15 achievements

Connect the parts of your system

The work collected under “Stakeholder & Reporting” shows one part of a working system. We can help connect that part to the rest of your operation. Turning what the business wants into something a developer can build, and saying out loud what is not worth building.

Find a comparable challenge

Follow an example that resembles your situation. Its review describes the decisions behind the result, beyond the technology label. A consistent identity across channels — 200x brand recognition, built from nothing

A consistent identity across channels Get in touch →

A consistent identity across channels

Developed Engineer ApS brand identity across offline and online material, connecting the presentation with its engineering portfolio. The founder reports a 200x increase in brand recognition from this work.

Brand communication informed by audience response

Used market research and audience feedback to shape Engineer ApS brand communication and outreach.

One infrastructure plan for 14 departments

Designed a comprehensive infrastructure framework for a research institute impacting 14 departments, featuring flexible modules, unified data pipelines, and structured support strategies for long-term adoption.

Released 500 electricity and GIS data reports

Released 500 electricity and GIS data analysis reports, utilizing deep research and troubleshooting to ensure accurate geographic and time series big data insights.

Optimized forecasting and investment strategies

Optimized forecasting and investment strategies for 11 electricity grid operators, driving operational efficiency through data-driven GIS solutions.

Presented 200 UI/UX improvements

Presented 200 UI/UX improvements for the GIS map application, boosting revenue by 10x through enhanced software features.

Managed 5,000 hours of map development

Designed and managed 5,000 hours of map development, using Scrum and Jira for effective project management.

Gathered and analyzed business requirements

Gathered and analyzed business requirements to translate into actionable features and user stories aligned with data governance standards.

Managed 30 successful GIS projects to delivery

Managed the execution of 30 successful GIS projects, demonstrating leadership in delivering innovative solutions across the field.

Established a Technical Support department

Established a Technical Support department, servicing over 10,000 clients with IT support and troubleshooting solutions, tracking client requests in a CRM.

Developed a Data Analytics reporting system

Developed a Data Analytics reporting system, increasing quarterly software revenue by 400% through Python-based PDF reports.

Managed a team delivering IT support

Managed a team delivering IT support, data recovery, and hardware repair services to over 1,000 clients, ensuring high-quality service.

Delivered analysis and regular progress reports

Delivered analysis and regular progress reports to the CEO, translating engineering KPIs and delivery status into decisions.

Built 7 read-only host reporting roles

Built seven read-only reporting roles that render a live host to Markdown — facts, access, git, metrics, traffic, security and provider inventory — under a rule that no number is printed the run did not measure.

Ran development as 51 written initiatives

Ran the site's development as 51 written initiatives across 54 plan documents, each carrying its open boxes, its measurements and the decisions it declined — including six of eight agent-readiness findings refused with the reason recorded.

Focus the engineering effort

Bring the decision, the people affected and the options already considered. We can make the tradeoffs explicit and leave a documented recommendation.
