Engineer

Recommendations for Ditte

Public recommendation sources about Ditte Daryna Sh and how to request a relevant professional reference with consent.

Ditte Daryna Sh founded Engineer ApS after a career in platform, data and infrastructure work. A colleague's recommendation concerns that professional relationship; it is separate from a client's assessment of a company engagement.

The existing recommendation record comes from LinkedIn. You can inspect the public source profile. Words and portraits are republished on this site only with explicit permission; a public profile alone does not provide that permission.

For a reference relevant to your project, tell us what you are considering. We can ask a suitable contact whether they are willing and available to speak. An introduction depends on their consent.

Hear how collaboration felt

Understand how a prospective collaborator works through the experiences shared here.

Read each recommendation in context

Treat each account as one person's perspective and compare it with the work described.

Cases Get in touch →

For a reference request, name the service or project you are considering, its planned scope and what you would like to learn about delivery.

Discuss the work, **agree the next step,** then decide how to proceed.

Tell us your goal and timing so we can agree scope, responsibilities and price before work begins.

Discuss your project What we offer →

Name the relationship you need

Bring the working relationship you need: hands-on delivery, a second opinion or guidance for your team.

See what it costs Get in touch →

Discuss working expectations

Discuss expectations with the person who would be doing the work.
